(1) The table presents price averages for 1-6 rooms dwellings which were included in the Dwellings Price Index, in each quarter, with no quality adjustment.
Starting from Quarter 4 2022 the average prices do not include government subsided transactions

(2) The Table includes average prices by districts and big cities (above 100 thousands residents) since 2017. Data for the last quarter are provisional.

(3) Since 2020, the annual average is based on all transactions conducted during that year, including delayed-reported transactions that were not included in one or more of the quarters of that year.
Accordingly, the total annual transactions do not necessarily sum up to the number of transactions reported in the four quarters of that year.

(4) National average prices and number of transactions include Judea and Samaria.

(5) Displaying data in this table is contingent on the minimum criterion.
For cells that include 5 transactions and below, more common in small apartments (1-2 rooms) and large apartments (5.5-6 rooms), no average price is published.
Note that these transactions are included in the city's average price.

(6) For more details, see "Methodology for calculating of the Dwellings Price Index and quarterly and annual averages" in Price Statistics Monthly, Average Housing Indices and Prices, Chapter 1.1.
